NOTIFICATION OF DIRECTOR'S HEARING

FOR UNLAWFUL DEMOLITION AND REVOCATION OF PERMITS

NOTIFICATION DATE: Friday, April 16, 1999

Pursuant to Section 103.3.3 of the **San Francisco Building Code**, you are hereby notified that the Director of Building Inspection will hold a hearing regarding the demolition of a building located at **3092 Market Street, San Francisco, CA 94114**

The referenced Code Section requires that the owners and occupants of property on the same block as a demolished building or structure — and across the street from the site for one block — shall be given written notification not less than thirty (30) days before the scheduled date of the Director's Hearing. **NO ACTION IS REQUIRED OF YOU. You have the right to appear and speak at the Director's Hearing,** if you wish.

The Director's Hearing on this demolition will be held on **Tuesday, May 18, 1999, at 10:00 a.m. in Room 2001 of the San Francisco Permit Center at 1660 Mission Street, 2nd Floor, San Francisco, California 94103-2414.**

IMPORTANT HEARING INFORMATION

Permit Application No. 9801063, Form 6, Demolition Permit, was filed on January 21, 1998 and issued on January 27, 1999. On February 8, 1999, less than the requisite 15 days required by San Francisco Building Code Section107. 20, Building Inspection Division received a complaint that the building at 3092 Market Street had been demolished. On February 9, 1999, Building Inspector Donal Duffy inspected the property and found that the dwelling had indeed been demolished. The demolition of this dwelling was in violation of S.F.B.C. Section 107.20 and has caused the Director of Building Inspection to hold a hearing pursuant to Section 103.3.3 of the San Francisco Building Code in which the following issues will be determined: **(1)** whether an unlawful demolition took place and, if so, the number of residential units that existed on the site prior to the demolition; **(2)** the proportion of residential to non-residential units that existed on the site prior to the demolition; **(3)** the total area (square footage) of the building or structure that existed on the site prior to the demolition; and **(4)** whether Permit Application No. 9801064 [Building Permit No. 870124] should be revoked.

NOTE: Pursuant to Section 103.3.3 of the **San Francisco Building Code**, if an unlawful demolition is determined to have taken place, no permit authorizing the construction or alteration of any building or structure for that site shall be issued for five years from the date of an unlawful demolition -- except for a permit for the construction of a building with the same number of residential units, with the same proportion of residential to non-residential units, and with the same or fewer square feet as the building or structure that was unlawfully demolished.

Upon determination that an unlawful demolition has taken place, **the owner of the property shall be assessed all costs incurred** in detecting the violation and in conducting the Director's Hearing. Additional civil penalties and investigation fees shall also apply.

Further information regarding this Director's Hearing is available from Senior Building Inspector Andrew Greene at (415) 558-6093.

Very truly yours,

Frank Y. Chiu
Director of Building Inspection
